

INFECTION CONTROL
our responsibility!

STERILIZATION

THE WAY WE ARE

MIDMARK is specialized in the development and production of infection control solutions such as **STERILIZERS**, ultrasonic cleaners, water purification systems, sealing devices and incubators.

Since 2010, we are part of Midmark Corporation, with the objective to provide an even better global healthcare experience.

Our brand is especially renowned for the sterilizers which are characterized by **FAST, ADVANCED AND PATENTED TECHNOLOGY** and, therefore, can boast high reliability, rapid cycle times and classy Italian design.

IS OUR
RESPONSIBILITY!

COMMITMENT FOR THE FUTURE

MIDMARK is committed to provide
SUPERIOR INFECTION CONTROL SOLUTIONS
to the medical community.

We understand that your hospital requires absolute
reliability on the sterilization processes.

MIDMARK gives you the peace of mind to focus on
what's most important: **YOUR PATIENTS!**

RELIABILITY

BASED ON DESIGN

Clean yet elegant on the outside, reliable and uncomplicated on the inside, the MIDMARK sterilizer is your perfect partner for instrument processing in today's busy healthcare environment.

MIDMARK sterilizers feature a sleek, stylish Italian design, to enhance the look of your practice.

Design is smooth with easily wipeable surfaces for effective **DECONTAMINATION**.

WATER QUALITY: NO PROBLEM

GOOD QUALITY STEAM is essential for 100% fail safe sterilization. It ensures that even the most difficult to reach areas of complex instruments are exposed to the right conditions for sterilization to occur.

Good quality steam can only be produced if **GOOD QUALITY WATER** is used in its generation. If excellent water quality is not available in your ward: ROSI is the solution! ROSI is an optional integrated tri-cartridge water purification system which connects directly to your practice water supply.

Reverse Osmosis Steam Injection
TECHNOLOGY

OUTSTANDING TECHNOLOGY

MIDMARK's experienced, forward thinking team of engineers have designed a sterilizer range with a **FASTER PRINTER, FAIL-SAFE MOTOR-OPERATED DOOR LOCKING, IMPROVED DATA RECORDING** functions, a more **INTUITIVE USER INTERFACE** and more **INTELLIGENT DIAGNOSTICS TO SIMPLIFY MAINTENANCE** procedures and maximize uptime.

JUST IN TIME!

Assuming you will be using the sterilizer multiple times a day, a MIDMARK sterilizer is a reliable, cost-effective unit for your practice.

For **UNWRAPPED INSTRUMENTS**, we ensure that sterilized instruments are available **ON TIME** for your next patient due to our faster, preprogrammed cycles. We ensure rapid throughput and no bottlenecks in your instrument workflow.

POUCHED ITEMS can be confidently stored until required.

QUIKSTEAM™

MIDMARK **EXCLUSIVE QUIKSTEAM™** patented technology ensures **UP TO 20% ACCELERATED CYCLE TIMES** with a lower energy consumption – saving time for your doctors and caregivers and money for your facility.

CHAMBER SIZE FOR YOUR NEEDS!

MIDMARK B18

MIDMARK B23

MIDMARK offers a wide range of

CHAMBERS FROM 6 TO 60 LITERS.

A standard **18 L CHAMBER** is ideal for sterilization in small and medium sized wards.

Alternatively, consider the longer **23 L CHAMBER** version, which still sits comfortably on a standard work bench, but it is perfect for larger departments using throughput surgical items.

ROSI, A SAFE STERILIZATION

With built-in ROSI, tri-cartridge water purification system, your autoclave can be connected directly to your practice **WATER SUPPLY**, always ensuring **GOOD WATER** to your sterilization process.

MIDMARK sterilizers are additionally protected by the inclusion of a **WATER QUALITY SENSOR**, as standard. The quality of the water is therefore constantly monitored. The display informs the user whether water used for sterilization is good.

CARE OF CUSTOMERS

Our network of friendly, **HIGHLY TRAINED ENGINEERS** can provide validation services, technical support, on-going training for your practice staff, routine maintenance and service back-up for your sterilizer, maximizing uptime of this vital step in your instrument processing cycle.
